

A Skeptics Journey

Presenting evidence
for God and Christianity

Rick Allan

I was a “church attendee” yet profoundly skeptical. I was only attending to support my wife. I believed Christianity was a man-made story enhanced over the years and science disproved God. *Church services did little to convince me otherwise.* It was only after I challenged myself and sought the truth that I discovered there was evidence for both God and Christianity.

I am called to share the evidence I found with “church attendees”, who like myself, may not be aware of the evidence.

Evidence For God		Evidence For Christianity	
Complexity of Life	Origin of the Universe	History	Inconsistencies
Supernatural	Fine Tuning	Eyewitnesses	Embarrassing Details
Desire	Morality	Leaders	Unplanned Corroboration
Survival Traits	Evil	Archeology	Prophecy
Human Uniqueness	Suffering	Writings	Miracles
Laws of Nature	Justice	Accuracy	Resurrection
