

A Skeptics Journey

In 2022, COVID rules relaxed and I was afforded new speaking opportunities. This speaking "tour" was very well received.

January - Friendship Church

A 4 hour Saturday morning seminar with ~50 people and a good mix of adults and youth. Everyone appeared to return after breaks (a positive sign) and many provided very positive feedback after. Pastor Kenny wrote an endorsement based on what he saw and it can be viewed on my website. The seminar was advertised during Christmas services.

February - Friendship Church

Two 1-hour seminars to high school youth, one at the Prior Lake and the other at the Shakopee campuses. Went very well.

April - District Blitz, Duluth

Two 1-hour seminars to ~130 youth and ~200 youth respectively. The Duluth Blitz had 2,400 youth attending this year. Mine was one of multiple seminars they could attend. Many students and adults spoke with me afterward and provided positive feedback. The 2nd seminar was standing room only! Very encouraging.

April - Oakwood Church

A 3 hour seminar with ~50 people, mostly adults. Again attendees returned after breaks and provided positive feedback. The seminar was advertised during Easter services.

Based on how this spring went, I'm confident this ministry is valuable and worthy of both my time and the attendees. It appears summers may be a quiet time for my speaking ministry as churches have lower attendance and school is out for the summer. Planning should soon start for fall and winter. I am hopefully to align with that and book some future speaking opportunities.

End of July I will be returning to the conference "CrossExamined Instructor Academy". I attended last year, and because of a generous donor have decided to go back this year. I'm looking forward to going and growing in my speaking abilities.
